

Maroos

Shipping & Forwarding Company

Oil and Gas Procurements

Maroos Oil & Gas Procurements has a long history in supporting the energy sector and our people and their accumulated knowledge and expertise is what unlocks the power of a partnership with Maroos as many of them have worked in the industry itself.

We have been successful in securing supply contracts to support the companies involved in developing and maintaining the Iranian off shore and shore based operations.

Our Supply House Operation has been developed, over the years, to meet the needs of oil, gas and chemical industries, who demand extremely high levels of flexibility and response when undertaking key projects e.g. plant shutdowns and the commissioning of offshore facilities.

We have built on this success and our true "One Stop Shop" is utilized by a growing list of blue chip companies around the world. Our ability to supply goods of all types world-wide, to specification, price and deadline is proven.
